

On November 19, 2009 St. Marys Pharmacy hosted a Bone Marrow Drive in order to raise awareness about Leukemia, and how you can save someone's life by just becoming a donor. Nicole Wilson one of the Pharmacists here at SMP and Christine Skrzypek a 6th year Pharmacy Student (Performing one of her Rotations at SMP) screened 20 donors at our site. We also informed many in the community about becoming a Bone Marrow donor, and how you can help someone even in our community!
